

The Federal Communications Commission

Dear The Federal Communications Commission,

Please, I ask you not to increase or tax phone cards or my cellular flat fee charge. I already pay an exorbitant amount for my home phone & feel that the breakup of AT&T has only led to higher costs & less services. I am most concerned that this proposal could make my current service unaffordable.

I make very few long distance calls & cannot afford the long distance service charged by my local phone company. I use my cell phone for safety & security reasons & buy phone cards to make all my long distance calls. Your proposed action would further limit my dwindling personal income.

Please reject the proposal to move the USF collection system to a flat-fee.

Sincerely,

Paul Shinal
